

## Water Safari: A Journey of Life Data Collection Document

**Directions:** Complete these planning charts and be prepared to explain to the class how you made your group decisions. Remember that the jobs are navigator, data transcriber, and tracker, and that you should rotate these functions on a daily basis. Day 1 will be the day on which you begin your Water Safari data collection.

<b>Group Name</b>			
<b>Group Members' Names</b>			
<b>Job Function on Day 1</b>			
<b>Job Function on Day 2</b>			
<b>Job Function on Day 3</b>			
<b>Job Function on Day 4</b>			
<b>Job Function on Day 5</b>			
<b>Job Function on Day 6</b>			
<b>Job Function on Day 7</b>			

<b>Countries That Our Group Will Investigate</b>	<b>Region in Which This Country Lies</b>	<b>Number of Volunteers Who Wrote About This Country</b>	<b>Number of Photos About This Country</b>	<b>Reason for Choosing This Country</b>

**Other Notes:**

Water Safari: A Journey of Life  
Data Collection Document

Write at least two criteria that you will use to help choose your photo recommendations. For example, the photo must represent a system and not a rare or isolated incident. You should decide how many of the criteria the photos have to meet to be included in your list of recommended photos.

**Photo Criteria:**

1. The photo must represent a system and not a rare or isolated incident.

2.

3.

4.

**Recommended photos:**

Country	Photo Number	Reason for choosing this photo
